# A Message from Ms Milner

Dear Student,

## **Year 9 Mid-Year Assessment**

This booklet has been put together to help you prepare fully for your Y9 Mid-Year Assessments which are taking place from the 20th - 28th January. These are important exams which your teachers will use to see whether you are working towards your full potential and to identify areas where you may need support to do so. As a result, it is critical that you prepare yourself fully to show your best on these assessments.

Use the following pages to form a revision timetable which will ensure you have looked over all the relevant information before your exam. If you are not sure about any of the topics or content listed then please speak to your teacher and ask for more guidance. They will be happy to help!

When revising try to use a variety of strategies and formats to help you. This could include making mindmaps, writing out key term definitions (and testing yourself!), doing practice questions on Seneca or Sparx, making flashcards with key facts, watching YouTube videos, and much more. When used together they will ensure you are fully prepared for your assessments. Don't forget to also use your knowledge organisers.

Have a look for more tips on BBC Bitesize by following this link [Top revision techniques for exams - BBC Bitesize](#)

Remember, the effort that you put in will be reflected in your achievements. We are all here to support you to achieve your full potential and if you need any additional guidance or have any concerns please speak to your subject teacher, form tutor, or Head of Year.

All the best,

Miss Milner

**Assistant Principal**

# Top Revision Tips

- **HABIT** - Get into the habit of working in a regular routine.
- **PLAN** - Plan your weekly revision, homework and leisure time on the timetables provided. Make sure you can realistically keep to the schedule that you have planned.
- **PLACE** - Make sure that you work in the best possible environment:
  - The room should be well lit to reduce eye strain
  - Quiet with few distractions – no TV or Phones. Sit on a chair at a table or desk rather than lounging on your bed or so close to a window that you might get distracted.
  - Identify a set time and place for studying – most people study best in the mornings and evenings, but you need to work out the best time for yourself.
- **ORGANISATION**
  - Be fully prepared. Books, paper, pens, drinks etc. should all be organised before you start.
  - Break each subject down into manageable chunks so that you can read over a topic once or twice in about 20 to 30 minutes. If you come across topics that you really don't understand, make a note of them and ask the subject teacher for help.
- **VARIETY** - Get some variety into your revision. Vary your use of revision materials: notes, revision cards, books, websites, podcasts and videos. Keep a record of what you have done in this booklet to make sure you cover all topics and don't avoid the more difficult ones.
  - Begin your revision by re-reading your notes from the previous session. This will improve your recall. At the end of the week revise the whole week's work. Revision should involve checking your notes and writing down the main points may help you learn them more than you would by just reading them.
  - As the exam draws nearer have 'key words' which trigger your memory.
  - Saying things out loud can help you to learn and can improve your use of appropriate vocabulary. It is important to test yourself after each piece of work. Identify some questions you might think will be on the paper and write an outline answer for each one.
- **RELAX** - Try to stop revising at least an hour before you go to bed. Relax to help you sleep. Working late will make you feel tired the next day. Only watch TV programmes that you enjoy rather than to fill in time. Get up early to make good use of your time.
- **HONESTY** - Always be honest with yourself. Teachers can help you but they cannot do the work for you. Ask for help when you need it.
- **PERSEVERE** - Don't give up: it really is not a long time and it will be worth it! Good luck!

# English

You will be tested on your reading skills and your punctuation, grammar and vocabulary. The test is divided into sections. You will read a text that you have not seen before and answer some questions to test your reading skills.

## The reading sections are:

### Essential Technical Knowledge (5 marks)

You will be defining different language methods in this section.

Example:

What is pathetic fallacy?

### Punctuation and Grammar (10 Marks)

This section of the text will assess your ability to apply grammatical rules – this is similar to the style of reading tests that you have completed throughout the year.

### Vocabulary (10 Marks)

You will be given a sentence with a word missing. You will choose the most appropriate word from a list to complete the sentence. The words are from the Frayer models that you have studied this year.

### Recall (5 marks)

This will involve remembering information from lessons to help answer the questions.

Example:

Who is segregated in the novella 'Of Mice and Men' and how do we know?

### Method and effect (10 marks)

This section will require you to identify the key terminology in the text and comment on what effect this has on the reader.

Example:

1. What language method is 'Curley stepped over to Lennie like a terrier'?
2. The writer creates a tense atmosphere. How far do you agree?

## The writing section:

### Writing (20 marks)

In this section you should spend 45 minutes writing a narrative using the 'Drop, Shift, Zoom, Link' method you have been taught this year. You will be given a sentence starter which you must use. Be as creative as possible. Make sure to use a wide range of literary methods. You must try your best with your spelling, punctuation and grammar.

# Maths

## Mid-Year Calculator Assessment

Unit	Topic	Sparx topics – highlight as you complete these clips using the independent learning function
9.01	Decimal Manipulation	U417, U478, M462, U735, U127, U293, U453, U868, U976
9.02	Estimation and Limits of Accuracy	U480, U298, U731, U965, U225, U657, U587, U108, U301
9.03	Related Calculations	U735
9.04	HCF & LCM of large numbers	U211, U751, U529, U236, U739, U250
9.05	Fraction Calculations	U736, U692, U793, U475, U224, U544, U538, U881, U916, U163
9.06	Algebraic Manipulation	M795, U613, M830
9.07	Index Laws	U105, U622, U103, U437, U685, U457, U824
9.08	Standard Form	M719, M678, U264, U290
9.09	Expanding & Factorising	U179, U365, U768, U178, U963

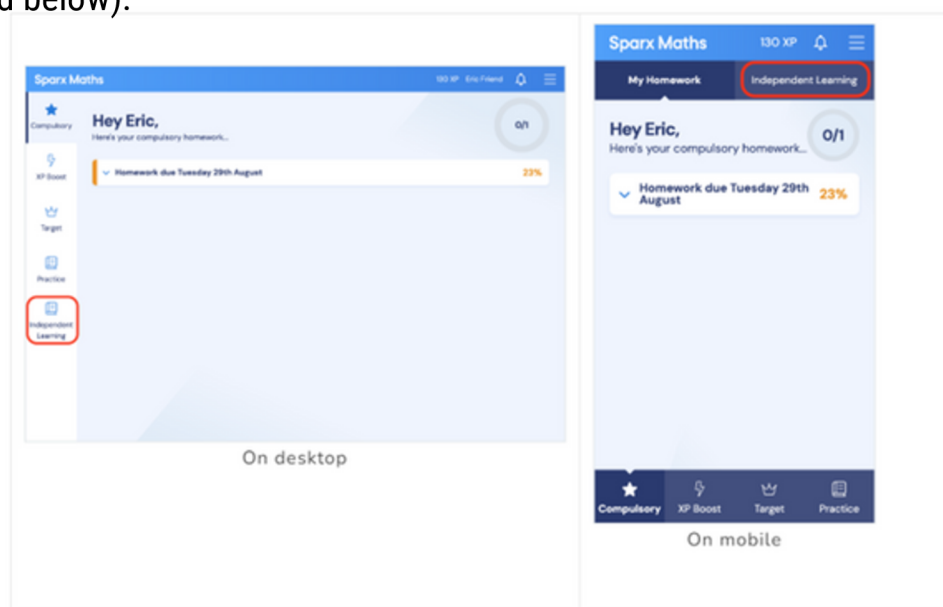

**See the next page for how to use Sparx independently if you're not sure...**

# Maths

## Revising Independently with SPARX

### STEP ONE: Finding independent learning

When you log in you will see the independent learning feature in the top right hand corner (circled in red below).

You can choose to work on any topic by:

- Typing one of the following in the Search for topics field:
  - The name of a topic
  - A keyword
  - A code given to you in the list on page 5.
- Browse the content by clicking on one of the main Strands.

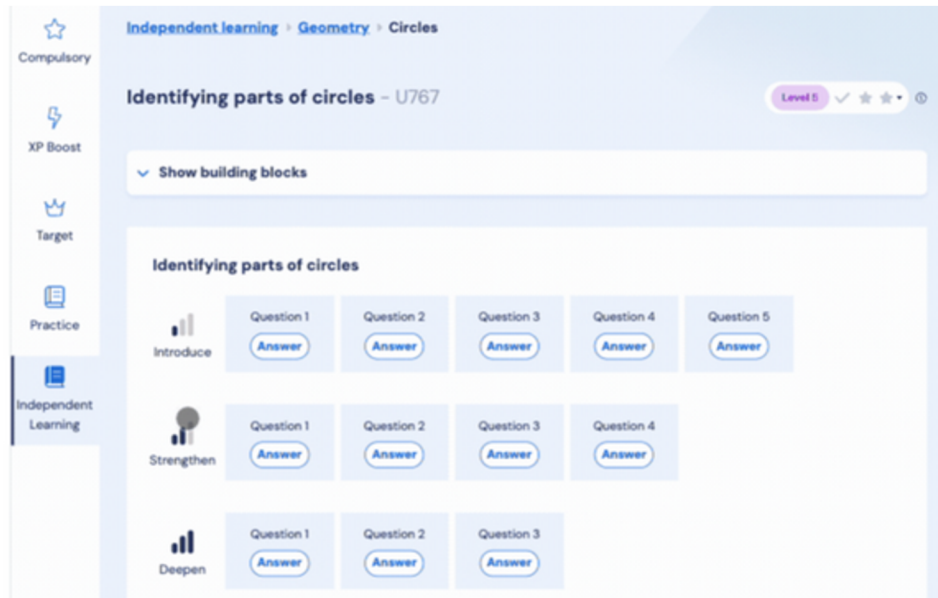

### STEP TWO: Choosing the right work

The difficulty level will be in line with that of your normal homework.

You can choose to complete questions that introduce the topic if you don't remember much about it, strengthen the topic if you need a recap or deepen the topic if you are looking to increase your knowledge.

## Revising Independently with SPARX

An example of this is shown on the right with the topic of circles.

You will see the difficulty level is set to 5 (in the top right corner) but you can change this if you are finding questions too hard or too difficult.

# Science

**Exam Format: 1 x 1 hour exam covering all topics below. Periodic Tables will be provided. Calculators will be necessary.**

## EXAM TOPICS

### Forces in action

- Moments
- Work done
- Simple machines
- Hooke's law

### Reactivity

- Atomic structure
- Bonding
- Atomic and formula mass
- Metal oxides and acids
- Metal carbonates and acids
- Reactivity series
- Metal extraction
- Properties and uses of metals
- Reactivity and voltage

### Energetics and Rates

- Measuring rates
- Concentration and rate
- Surface area and rate
- Catalysts
- Endothermic and exothermic
- Combustion
- Thermal decomposition

# Geography

**1 x 40 minute exam.**

## Topics Covered:

### Life in an Emerging Economy

- BRICs and MINTs
- Development indicators
- Urbanisation in emerging economies
- Opportunities and Challenges in NEE cities

### World Ecosystems

- Locations of world biomes
- Climate in world biomes
- Tropical rainforests
- Plant and animal adaptations in tropical rainforests

## REVISION

- Complete the revision topics and practice questions set on Seneca
- Use your knowledge organiser for key terms and processes
- Use BBC Bitesize – KS3 Geography – Global Biomes and Tropical Rainforests:
- *Make revision mind maps and notes to supplement your learning.*  
<https://www.bbc.co.uk/bitesize/topics/ztgw2hv>

# History

**1 hour exam covering Units 1 and 2 of Year 9 curriculum.**

## Topics Covered:

### Unit 1: World War One

- The main causes of World War One
- The assassination of Franz Ferdinand
- The Schlieffen Plan
- Life in the Trenches

### Unit 2: Suffrage

- The role of the Suffragists in getting women the vote
- The role of the Suffragettes in getting women the vote
- The role of World War One in getting women the vote

## REVISION

- Complete the revision booklet which will be given to you by your class teacher
- Complete the revision topics and practice questions set on Seneca
- Use your knowledge organiser for key terms and dates
